

WAX ON, WAX OFF...FLOORED WITH SCHOOL WORK DURING THE SUMMER.

Summer is almost at an end and students are ready to get back to school. Accord Building Services performed lots of floor care for all of our educational clients facilities. Additionally, we assisted 2 other large educational facilities to strip and wax their floor too.

Confluence Academy, which has 4 campuses in St. Louis, contracted with Accord to clean and wax over 34,000 square feet of tile on a new addition. Confluence has contracted with Accord several times for floor services as well as consulting on floor services.

Borromeo, Catholic Parish and School, in St. Charles also contracted with Accord Building Services for major floor renovation during the summer. We are stripping and waxing approximately 50,000 square feet of vinyl composite tile (VCT) as they are also doing other renovations.
